Software Developer

With 5 years of experience in mobile development, I have delivered high-quality cross-platform applications, resulting in a 30% increase in user engagement. I have led full project lifecycles, from concept to deployment, in various roles over the past 3 years.

WORK EXPERIENCE

Interactive Media Services • Nairobi Kenya • 09/2024 - Present

A service-based company specializing in custom software development, delivering tailored solutions to meet diverse business needs.

Fullstack Developer • Full-time

Rent-a-Shelf Management Applications • 11/2023 - Present

Senior Mobile Developer Consultant

- Led the development and ongoing maintenance of two key rent-a-shelf management applications. Utilized Flutter for seamless cross-platform functionality, ensuring robust performance across iOS and Android devices.
- Managed full project lifecycle from initial concept to deployment and regular updates, significantly improving operational efficiency and user engagement for the client.

Lipa Mosmos • 03/2023 - 11/2023

Fullstack Developer

- Worked as a part-time software developer at Lipa mosmos. I worked with Laravel, Flutter, React, and Google cloud to maintain the application and deploy updates to appstore.

Algoridm technologies • 04/2022 - 05/2023

Software developer

- With 3 years of experience as a seasoned professional who had a deep understanding of the Flutter framework, React, state management, and application life cycle, I had a proven track record of building robust and high-quality cross-platform applications for web, Android, and iOS.

Intelbyt Solutions • 02/2021 - 06/2022

Flutter developer

- Worked closely with product owners, designers, and other developers to create high-quality applications for various platforms, including Android and iOS.

Abora app limited • 05/2020 - 11/2020

Junior android developer

- Focused on building and maintaining mobile applications using the Flutter framework.

EDUCATION

B.Sc Engineering in Engineering

Jomo kenyatta university of agriculture and technology

PROJECTS

RafuZetu Rentashelf Apps • 01/2023 - 01/2024

rafuzetu

This project encompasses the development and maintenance of the RafuZetu website and its associated Rentashelf apps. The core of the project is built with React, and the mobile apps built with showcasing a modern web application framework that allows for efficient and dynamic user interfaces. The website serves as the central hub for RafuZetu's online presence, offering a comprehensive overview of the company's services, products, and company culture. It's designed with a focus on user experience, ensuring seamless navigation and engagement for visitors.

MOSMOS APP • 01/2023 - 01/2023

LIPA MOSMOS

I worked on several modules of the application to ensure smooth UI/UX design using flutter for frontend. such modules include goals, user profile, and the shop module among others. It is an active app with about 60000 users. Frameworks used are Flutter, React, and Laravel

WASTEPAYS APP • 01/2023 - 01/2023

wastepays-uganda

Leveraging my expertise in React Native and Tailwind CSS, I successfully redesigned a cross-platform mobile application tailored for both agents and users. This project not only enhanced the user experience but also deepened my understanding of the application lifecycle and state management in a cross-platform environment.

SPACE APP • 01/2023 - 01/2023

ray-space-app

The application was designed to streamline the client queuing process, providing a more efficient and user-friendly experience. I utilized Flutter, a UI toolkit from Google that allows for the creation of natively compiled applications for mobile, web, and desktop from a single codebase

SKILLS

Mobile Development

- Flutter
- Kotlin
- React Native
- Push Notifications
- Analytics

Code Versioning

- Git

Cloud Services

- Google Cloud
- Share Hosting

Web Development

- React
- Next JS
- Django
- HTML & CSS
- Laravel
- Tailwind CSS

CI/CD tools

- Github actions
- Fastlane
- Gitlab
- Code magic

Containerization

- Docker

OOP

- Python
- Java
- PHP
- Dart
- Javascript

Database

- Firebase
- MySQL
- MongoDB

Languages

- English
- Kiswahili
